

## Alumni Survey Results

Carver conducted an alumni survey of those who graduated between 2013 and 2023 from the Seminary, the College, and the Institute. The survey was conducted in the summer of 2023 via phone calls from a member of our administrative team. Thirty-three total alumni responded to the survey (61% of all alumni during this period).

- Regarding their satisfaction with their education at Carver, 100% of alumni responded that they would recommend Carver to others. Among the reasons for their satisfaction were the education obtained (51%), love of the school (39%), the faculty (24%), and the cost (6%).
- Regarding whether our alumni are still serving in ministry positions, 75.8% indicated that they are actively serving. Twenty-one percent indicated that they are not serving at the moment because of a recent transition or had not returned for some other temporary reason. Only one person indicated that they are no longer serving in ministry.
